Why a Conference Vetting System (CVS)?

Part I: CVS Reviewed Criteria

Part II: How to Submit an Event in CVS 2.0

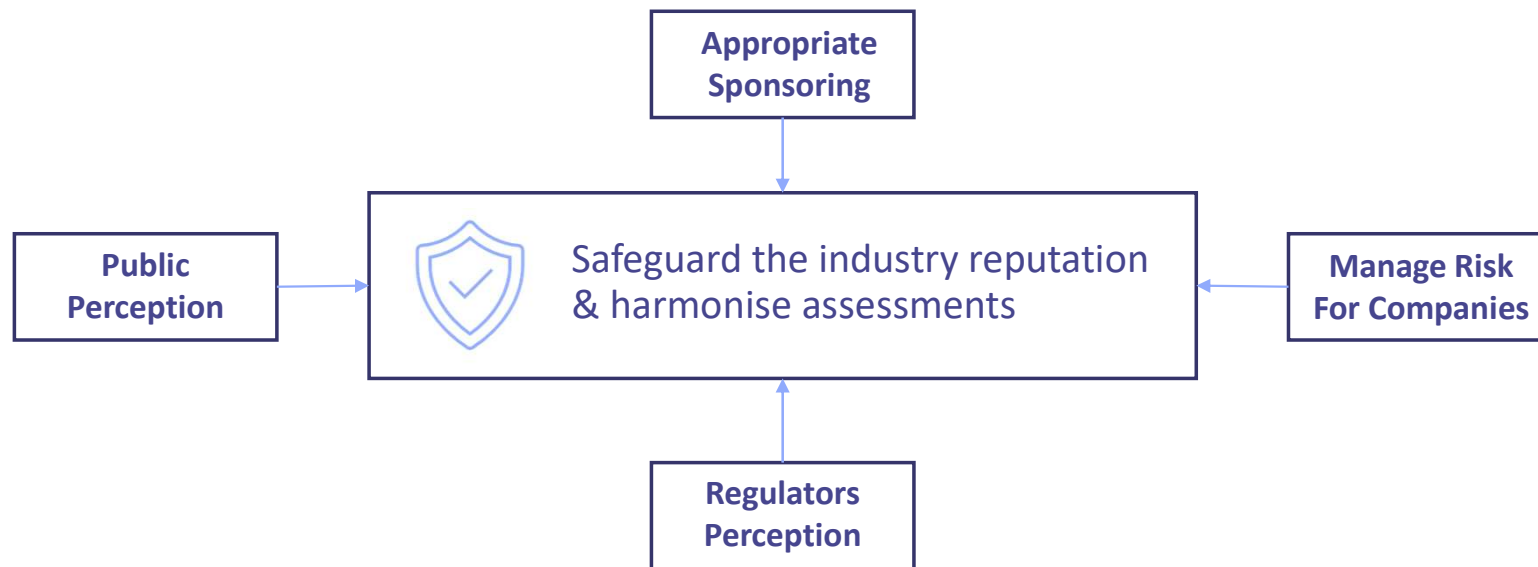

- Introduction to the new platform
- Instructions to submit an event
- Review process
- Appeals – Event Ownership -

Closing Remarks

# Why a Conference Vetting System?

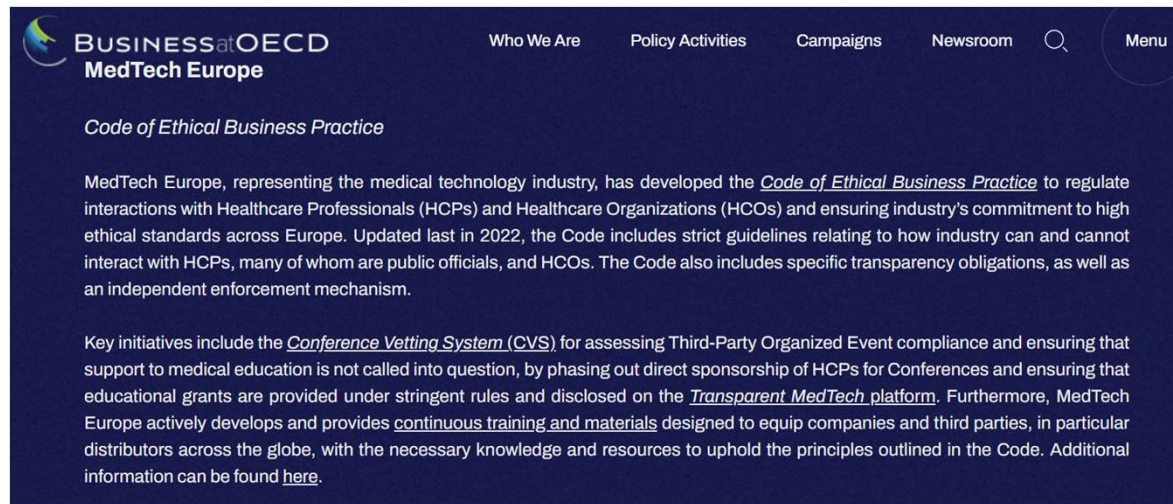

# > Conference Vetting System (CVS)

Unique initiative in the healthcare industry: a centralised decision-making system that reviews individual third party organized events and congresses to ensure that industry's financial support cannot be called into question.

# > CVS recognized by OECD

- The OECD, in the launch of the zero corruption campaign, mentioned the Conference Vetting System in one of the 20 best awareness initiatives of the last years

The screenshot shows the top navigation bar of the Business at OECD MedTech Europe website. The logo is on the left, and navigation links for 'Who We Are', 'Policy Activities', 'Campaigns', 'Newsroom', and 'Menu' are on the right. The main content area is titled 'Code of Ethical Business Practice' and contains two paragraphs of text. The first paragraph describes the Code of Ethical Business Practice, which regulates interactions with Healthcare Professionals (HCPs) and Healthcare Organizations (HCOs) and ensures industry's commitment to high ethical standards across Europe. The second paragraph lists key initiatives, including the Conference Vetting System (CVS) for assessing Third-Party Organized Event compliance and ensuring that support to medical education is not called into question, by phasing out direct sponsorship of HCPs for Conferences and ensuring that educational grants are provided under stringent rules and disclosed on the Transparent MedTech platform. It also mentions that MedTech Europe actively develops and provides continuous training and materials designed to equip companies and third parties, in particular distributors across the globe, with the necessary knowledge and resources to uphold the principles outlined in the Code. # > CVS & e4ethics

For events taking place in **Mecomed** countries, please refer to the **Mecomed** guidelines.

- **CVS team:** both platforms operate via a common Compliance team
- **Criteria and approach:** e4ethics is aligned with the CVS
- **Submission procedure and appeal process:** identical for both systems
- **Scope and Type of Events qualifying for review:** remains different
- **Out of scope of CVS & e4ethics**
  - Virtual events
  - National events

32.000 Events since 2012  
4.000 events/year

# Scope MedTech Europe – EFPIA

- International medical education events

For events taking place in **Mecomed** countries, please refer to the **Mecomed** guidelines.

- Major international Events taking place **in the countries within the scope of the EFPIA Code**
- Events in which Healthcare Professionals coming from more than 5 countries may take part and which are expected to attract **at least 500 participants**

International Events when:

Are HCPs from at least 2 countries invited or expected to attend?

- Attended by delegates coming from at least 2 countries of **MedTech Europe geographical scope**; or
- At least 1 delegate who is an HCP, registered and practicing in the MedTech geographical area, attends Events taking place **outside** the MedTech Europe **geographic area**.

# > Compliance Team

The CVS operates independently via a Compliance Team composed:

- two Compliance Officers and
- three Compliance Panel members

The Compliance Officers operate under the supervision of the MedTech Europe Compliance Panel

# Part I: CVS Reviewed Criteria

## > 6 criteria assessed with same weight

### PRINCIPLES : IMAGE AND PERCEPTION

Image and perception projected to the public when industry wishes to support a particular Event are determinant in the assessment decisions under CVS

# The Criteria have been Reviewed

- Objectivize the criteria
- Facilitate the interpretation
- Increase predictability
- Reflect the industry requirements and stakeholders' ask
- Holistic approach (with each criterion having the same weight)

# Scientific Programme

**Scientific  
programme**

- Principle: Educational Event with a programme that relates to specialty and/or medical practice of the HCP
- Requirements
  - In English
  - Clear schedule with no gap
  - A minimum of 6 hours for a full conference day and 3 hours for a half day
  - Serious medical subjects related to the therapeutic area of the conference. Indicate the title and the faculty for each session
    - Scientific sessions exclude breaks, opening ceremony, social activity,...
  - Minor components of the agenda content relating to non-medical topics, such as communication skills, practice management, and speaking and presentation skills are acceptable.
    - Non-medical topics should be relevant in the context of the overall theme and agenda of the conference.
    - Non-medical topics should never become the main or an important attraction of the conference.

# Geographic Location

Geographic  
location

- Principle: NOT the main attraction
- Requirements:
  - In or near a city, scientific or business centre, conducive to knowledge
  - Central location
  - Ease of access
  - In addition, consideration of the seasonality
    - If the location is predominantly a touristic or holiday destination, it may still be considered non-compliant

# Conference Venue

Conference  
venue

- Principle: Venue conducive to the exchange of scientific and medical information and the transmission of knowledge
- Requirements:
  - Appropriate conference facilities
  - The image of the venue among the public, media and authorities cannot be perceived as luxury, touristic/holiday and/or entertainment/leisure facility
  -  Spa and hotel resort, hotels with beach access, on-site casino, hotel with golf, cruise ship, not allowed
  - When offering the proper conference facilities for an Event, museums and stadiums can be compliant
    - Not the main attraction
    - Separate entrance
    - No free or discounted tickets in the registration
    - For stadiums, no concurrent leisure event

# Hospitality and Registration package

Will be reviewed  
under one criteria

## Hospitality and Registration Package

- Principle: The **registration fees** for participants should cover only the scientific programme, authorised activities and modest and incidental hospitality.
  - Hospitality covers accommodation, meals/breaks, networking events/get together and (welcome, closing, gala dinner, party ...) receptions included in the fees
- Requirements:
  - Hospitality should be modest and incidental and limited to reasonable hotel accommodation, venues and meals
  - **Spouses, partners, family and/or guests** should not benefit from hospitality sponsored by MedTech Europe members
  - **Social programme:**
    - Must be outside of the programme schedule and
    - Must be paid for separately by the HCP delegates when includes any entertainment
    - This information must be made clear in the programme or website of the Event
  -  Tablets or any other form of gift are not compliant.
  -  Childcare services may be available on site to delegates but this service must be charged separately.

# Hospitality and Registration package - entertainment

## Hospitality and Registration Package

- Entertainment may not be funded by the industry
- In cases where a separate fee is paid by the HCP:
  - The fee has to be clearly mentioned on the website/registration form/programme
  - The fee must be at market value (reasonableness)
  - *Even when a fee is paid*, if the entertainment is deemed as potentially damaging the industry reputation due to a luxurious, extravagant, memorable hospitality, the event will be assessed as not compliant
    - e.g. concert with Kylie Minogue, high profile football match, access to Michelin-star restaurant with long waiting list

# Communication

**Communication**

- Principle: Advertising support should highlight the scientific nature of the programme content.
- Requirements:
  - A valid link to the official Event website
  - Only practical travel information (how to reach the conference venue or where to find accommodation)
  -  No focus on touristic visuals of the destination (landscape, landmarks, monuments) but focus on the scientific/therapeutic area relating to the Event.
  -  No material promoting the destination of the Event (tourism pictures or information)
  -  No reference to any temporary events (temporary exhibition, sport competition, ...) taking place at the Location.

# Communication – good practice

## ▼ Glasgow City Information

---

Planning your visit to Glasgow? View more information about the city at the People Make Glasgow website. <https://peoplemakeglasgow.com/>

The Congress is delighted to receive support from the Glasgow City Council in recognition of their commitment to bring this meeting to the City. The support from the Glasgow Convention Bureau in advising delegates whilst in the City is highly valued.

# Third Party Procedure Trainings

- **Third-Party Organised Educational Events that are primarily intended to provide Healthcare Professionals with information and training on the safe and effective performance of one or more clinical procedures,** in circumstances where the information and training concern:
  - Specific therapeutic, diagnostic or rehabilitative procedures, namely clinical courses of action, methods or techniques (rather than the use of medical technologies); and
  - Practical demonstrations and/or training for HCPs, where the majority of the training programme is delivered in a clinical environment.

# Checklist to qualify as TPPT

As from January 1st 2024, sponsoring members need to ensure that the event complies with the requirements of a TPPT.

Checklist	Description	Who checks?
<input type="checkbox"/> Programme	Practical sessions must in all cases represent more than 50% of the full programme and hands-on sessions must represent at least one-third of the full programme.	<b>Member companies</b> which are planning to support TPPT must ensure this requirement is fulfilled.
<input type="checkbox"/> Size	Must usually be relatively small.	
<input type="checkbox"/> Venue	The hands-on sessions for TPPT are typically organised in either a clinical environment or in places suitable for (or set up to) simulating medical procedures.	<b>CVS team</b>
<input type="checkbox"/> Stand alone event

## Why a new CVS 2.0

More intuitive interface

Streamlined communication

More user friendly tool

Let's start...

## > Who is entitled to make an Event submission in the system?

The following categories of **stakeholders**:

- MedTech Europe corporate members; Mecomed members; EFPIA corporate members;
- MedTech Europe national associations and associate members\*; EFPIA national associations and associate members;
- Healthcare Organisations (HCOs) including hospitals;
- Professional Conference Organisers (PCOs).

\* Please note that Members of the national associations who are not direct corporate members of MedTech Europe may only file a submission through their national association

**Link to the platform** <https://cvs.solutions.iqvia.com>.

## **1. Register as new user**

As first-time user, you need to register and create a new profile : <https://cvs.solutions.iqvia.com/register>

## **2. Submit an event**

Once you have created a profile, log in on the page.

### 3. Click on “Submit an event”.

The information to be provided is very similar to what you used to provide in the previous system.

The screenshot displays the Ethical MedTech user interface. At the top, the logo 'Ethical MedTech' is on the left, and navigation links 'Home', 'All Events', and 'Action Required' are in the center. A 'Submit an event' button and a power icon are on the right. Below the navigation bar, the text 'Welcome Submitter 1,' is displayed. Three main action cards are shown: a purple card for 'Submit an event' with a plus icon and text 'Submit an event in the Conference Vetting System for an assessment.'; a teal card for 'Overview of submitted events' with a list icon and text 'Access the overview of all events which you have submitted in the Conference Vetting System.'; and a red card for 'Events require your attention' with a warning icon and text 'Some events require require your attention. Please review them to allow us to process the events.'
